A minor in Military Science and Leadership is for students who seek to improve and challenge themselves on a daily basis. Students will experience realistic, dynamic training designed to teach values and skills essential for leaders in every organization. Courses are “hands on,” with an emphasis on leadership application through practical exercise. Students practice techniques while assigned to leadership roles within the Cadet Organizational Structure. In addition, courses are designed to instill professional ethics and familiarize participants with principles of physical fitness and a healthy lifestyle.

Ultimately, the program explores the dynamics of leading in a complex environment and prepares students to analyze, manage and change. The end state of the program is for students to be adaptive leaders with the confidence in their ability to lead, make decisions, and motivate subordinates for our Army and our Nation.
